PROFESSIONAL SUMMARY

MEAN Stack Developer skilled in building scalable web applications using Angualr,MongoDB, Express.js, and Node.js. Proficient in RESTful API development, SQL/NoSQL integration, and full-stack architecture. Strong team collaborator with a passion for clean code, optimization, and delivering high-quality user experiences.

EDUCATION

B.E. in Electronics and Telecommunication 2021 – 2024
Sandip Institute of Engineering and Management, Nashik- CGPA: 7.72

SKILLS

Programming Languages	**C**, **Java**
Databases	**MySQL**, **MongoDB**
Front-End Technologies	**Angular**, **HTML**, **CSS**, **JavaScript**, **Bootstrap**
Back-End Technologies	**Spring Boot**, **Hibernate**, **Node.js**, **Express.js**
Tools & Platforms	**Git**, **GitHub**, **Eclipse**, **VS Code**, **Postman**
Soft Skills	**Problem-Solving**, **Teamwork**, **Leadership**

EXPERIENCE

MEAN/MERN Stack Intern – Techonsy, Pune Jun 2024 – Jun 2025
- Developed full-stack web applications using Angular, Node.js, Express, and MongoDB
- Collaborated with the team on feature development, bug fixes, and performance enhancements

PROJECTS

Bank Application
Technologies: Java, SQL, JSP
-Developed a secure banking platform enabling fund transfers, deposits, and account management.Designed backend logic in Java for transaction handling and JSP-based user interface. -Improved transaction accuracy and processing speed by 40%.

LMS-Learning management System
Technologies: Angular, Node.js, MongoDB
-Built a scalable LMS with features like course management, student tracking, and assignment submission. Integrated Razorpay for payments and AWS S3 for secure file uploads. Automated email notifications using NodeMailer, boosting system efficiency by 30%.

Employee Management System
Technologies: Angular, Node.js, MongoDB -
- Developed dashboards to manage employee profiles, leave requests, attendance, and payroll. Implemented JWT authentication, role-based access control, and PDF report generation, improving admin efficiency by 25

Alzheimer's Disease Detection using ML
Technologies: Python,ML
-predicted Alzheimer's disease using classification models with optimized feature extraction and selection techniques. -Achieved an accuracy of 87% using Random Forest and SVM classifiers, contributing to early-stage detection insights.

CERTIFICATIONS AND ACHIEVEMENTS

Full Stack Java Developer – LinkCode, Pune Jun 2024 – Dec 2024
- Trained in Java, Spring Boot, Hibernate, SQL, and Angular

Technical Competitions:
- Finalist in Avishkar State-Level Project Presentation
- Winner at Webethon 3.0 Web Development Competition
